## Universal gate control pannel

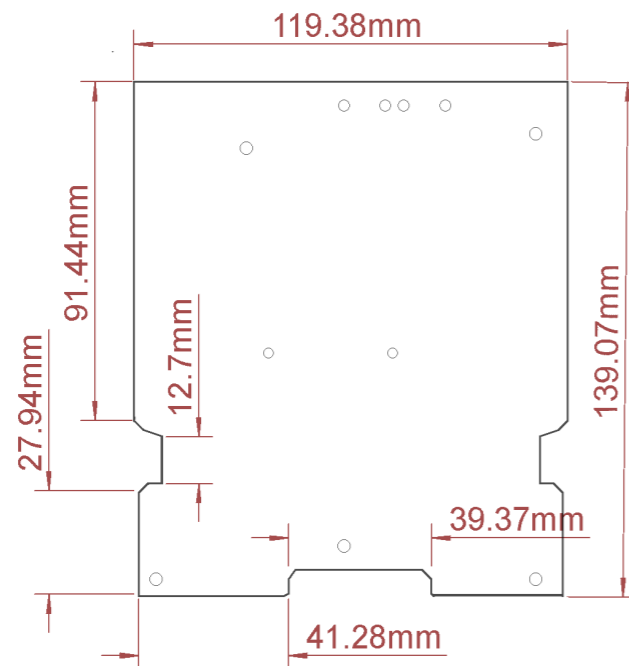

| RS485 | Auto Close | 18000 KG |

Model

SABIK-510: Universal gate controller, with RS485 interface

Features

. SABIK-510 is an advanced gate controller board.

. Can control gates up-to 1800 Kg.

. Open-stop-close-stop-open, push button operation

. Automatic Work time calculation.

. Rs-485 interface to operate and get status of the gate.

. RJ-11 interface for walking door control.

Specifications

Model	SABIK-510
Input voltage	220 VAC~250V AC
Timers	Work time (self calibrated)
	Normal Delay (delay to autoclose)
	Photo delay(delay to close after photo beam is interrupted)
Communication Interface	RS485
Door Interface	RJ-11
Operation Indicator	Falsher Indicates the opening and closing
Photo sensors	yes
Motors	upto 2 Bidirectional AC Motors

Dimensions (mm)

119.38mm

91.44mm

27.94mm

12.7mm

139.07mm

39.37mm

41.28mm
